

## RD Certificate Number: EWS1139

### Wraptherm

#### Description

This is an assessment of Proctor Wraptherm which is a wall membrane composite aimed at improving airtightness whilst reducing the effects of thermal bridging which is particularly useful in refurbishment projects. The high-performance membrane composite is self-adhesive and was developed for use in the refurbishment of existing buildings to enhance the thermal and airtightness performance of the building. When applied to the internal face of the existing façade it provides a vapour permeable yet airtight layer, fully self-adhered to the substrate beneath with the added 10mm thick layer of Spacetherm insulation.

#### Scope of Registration

Due to space limitations, the Registered Detail certificate should be consulted for the scope of this registration.

#### Validity

This system has been checked for compliance in accordance with English, Welsh & Scottish Building Regulations

Registration was first issued on 24/03/20 and is valid until 26/06/2021 providing there are no amendments to applicable regulations.

**Issue dated** 26/06/2020
