

RD Certificate Number: EWS807C

Spacetherm Multi Insulation

Description

This is an assessment of Proctor Multi, it is a high performance thermal laminate specifically designed to be laid directly onto existing floors & walls. Spacetherm Multi consists of Spacetherm aerogel insulation blanket bonded to a 6mm Magnesium Oxide board. As the product can achieve similar performance to other insulation systems but at a fraction of the thickness with a K factor of 0.015W/mK the solution is ideal for use in applications where low U-values are required and room space is at a premium (such as loft conversions or other refurbishment projects).

Scope of Registration

Due to space limitations, the Registered Detail certificate should be consulted for the scope of this registration.

Validity

This system has been checked for compliance in accordance with English, Welsh and Scottish Building Regulations

Registration was first issued on 31/03/18 and is valid until 31/03/19 providing there are no amendments to applicable regulations.

Issue dated 31/03/2018
